*Warranty coverage is for defective parts and workmanship related to install. Does not cover wear and tear, user error or damage caused by negligence or by vehicle accident. Manufacturer warranty covers product defects.

AUTOSTART INSTALLATION

A general overview of the process for installing an autostart system.

1

Use our catalog to identify the type of autostart system you'd like to purchase. Or custom build with options that match your wish list.

2

Schedule your appointment with a service advisor in person, by phone or through our website.

563-CARS • CONTINENTALAUTOGROUP.com

3

Drop the vehicle off with your service advisor as early as possible. Let us know if you need our complimentary shuttle.

We advise customers to plan for all-day installation.

4

Users having a Compustar Drone Mobile system installed should download the smartphone application at this time.

Available on the iPhone App Store

ANDROID APP ON Google play

5

When the installation has completed and functionality has been tested, we will notify the vehicle owner it is ready.
If installation needs more time, we will notify owner by 3pm.

6

At delivery, an advisor will demonstrate the autostart usage and special features.

Drone systems will be registered to smartphone.

7

Your advisor will invite you to fill out a survey. We love to hear great news but if there is a problem we want to solve it promptly.

Installation may require one of your vehicle keys.
